

Use these instructions if you are preparing a manuscript to submit to *Plant Production Science*; an international research journal published by the *Crop Science Society of Japan*. To explore our journals portfolio, visit <http://www.tandfonline.com/>, and for more author resources, visit our [Author Services](#) website.

Plant Production Science publishes original research reports on field crops and resource plants, their production and related subjects, covering a wide range of sciences; physiology, biotechnology, morphology, ecology, cropping system, production technology and post harvest management. Studies on plant production with special attention to resource management and the environment are also welcome. Field surveys on cropping or farming system are also accepted. Articles with a background in other research areas such as soil science, meteorology, biometry, product process and plant protection will be accepted as long as they are significantly related to plant production.

Open access

Each article published in *Plant Production Science* is published **Open Access**, which means that, **upon payment of an article publishing charge (APC)**, the article is freely and permanently available on Taylor & Francis Group's online platform <http://www.tandfonline.com/>. There is no additional subscription fee, article pay-to-view fee or any other form of access fee; and no publication embargo is applied.

[More information about Taylor & Francis Open and Routledge Open.](#)

To cover the cost of Open Access publishing, *Plant Production Science* charges an article publishing charge (APC) for all accepted articles. There is no submission charge.

Plant Production Science considers all manuscripts on the strict condition that

- the manuscript is your own original work, and does not duplicate any other previously published work, including your own previously published work.
- the manuscript is not currently under consideration or peer review or accepted for publication or in press or published elsewhere.
- the manuscript contains nothing that is abusive, defamatory, libellous, obscene, fraudulent, or illegal.

At least the first-named author of a paper had better be an individual subscriber of *Plant Production Science* or *Japanese Journal of Crop Science* before a manuscript can be accepted.

Please note that *Plant Production Science* uses [CrossCheck™](#) software to screen manuscripts for unoriginal material. By submitting your manuscript to *Plant Production Science* you are agreeing to any necessary originality checks your manuscript may have to undergo during the peer-review and production processes.

Any author who fails to adhere to the above conditions will be charged with costs which *Plant Production Science* incurs for their manuscript at the discretion of *Plant Production Science*'s Editors and Taylor & Francis, and their manuscript will be rejected.

Manuscript preparation

1. General guidelines

[↑Back to top.](#)

- Regular papers and short reports will be accepted for publication after critical review. A regular paper is a full-length article of original research findings and a short report is published about apparatus, experimental

techniques and observations of unique phenomena, etc. Review articles by invited or volunteer authors will also be published.

- Manuscripts are accepted in English. *Plant Production Science* strongly suggests that authors have their manuscript reviewed and corrected by English-editing services before submission to improve the English. Manuscripts of low linguistic quality will be returned to authors without review. The use of English-editing services does not guarantee acceptance for publication in PPS. Please ask the editorial office for standard English-editing services, if necessary.
- Manuscripts should be compiled in the following order: title page (including Acknowledgements as well as Funding and grant-awarding bodies); abstract; keywords; main text; acknowledgements; references; appendices (as appropriate); table(s) with caption(s) (on individual pages); figure caption(s) (as a list). [Abstracts](#) of less than 250 words are required for Regular paper/Review and 150 words for Short Report, respectively.
- Each manuscript should have 1 to 7 [keywords](#).
- Search engine optimization (SEO) is a means of making your article more visible to anyone who might be looking for it. Please consult our guidance [here](#).
- Section headings should be concise and numbered sequentially, using a decimal system for subsections.
- All authors of a manuscript should include their full names, affiliations, postal addresses, telephone numbers and email addresses on the cover page of the manuscript. One author should be identified as the corresponding author. Please give the affiliation where the research was conducted. If any of the named co-authors moves affiliation during the peer review process, the new affiliation can be given as a footnote. Please note that no changes to affiliation can be made after the manuscript is accepted. Please note that the email address of the corresponding author will normally be displayed in the article PDF (depending on the journal style) and the online article.
- All persons who have a reasonable claim to authorship must be named in the manuscript as co-authors; the corresponding author must be authorized by all co-authors to act as an agent on their behalf in all matters pertaining to publication of the manuscript, and the order of names should be agreed by all authors.
- Biographical notes on contributors are not required for this journal.
- Please supply all details required by any funding and grant-awarding bodies as an Acknowledgement on the title page of the manuscript, in a separate paragraph, as follows:
 - *For single agency grants:* "This work was supported by the [Funding Agency] under Grant [number xxxx]."
 - *For multiple agency grants:* "This work was supported by the [Funding Agency 1] under Grant [number xxxx]; [Funding Agency 2]

under Grant [number xxxx]; and [Funding Agency 3] under Grant [number xxxx]."

- Authors must also incorporate a [Disclosure Statement](#) which will acknowledge any financial interest or benefit they have arising from the direct applications of their research.
- For all manuscripts non-discriminatory language is mandatory. Sexist or racist terms must not be used.
- Authors must adhere to [SI units](#). Units are not italicised.
- When using a word which is or is asserted to be a proprietary term or trade mark, authors must use the symbol ® or TM.
- Authors must not embed [equations](#) or image files within their manuscript.
- Please note the following exception to APA style: In all references, 3 or more authors should be stated with 'et al.' e.g. Smith et al. (2012).

2. Style guidelines

[↑Back to top.](#)

- [Description of the Journal's article style.](#)
- [Description of the Journal's reference style.](#)
- [Guide to using mathematical scripts and equations.](#)

3. Figures

[↑Back to top.](#)

- Please provide the highest quality figure format possible. To improve the print and online display, please ensure that all figures and graphics are supplied at the appropriate resolutions listed below:
- Minimum 1200 dpi for line art; Minimum 600 dpi for greyscale; Minimum 300 dpi for colour.
- Figures must be saved separate to text. Please do not embed figures in the manuscript file.
- Files should be saved as one of the following formats: TIFF (tagged image file format), PostScript or EPS (encapsulated PostScript), and should contain all the necessary font information and the source file of the application (e.g. CorelDraw/Mac, CorelDraw/PC).
- All figures must be numbered in the order in which they appear in the manuscript (e.g. Figure 1, Figure 2). In multi-part figures, each part should be labelled (e.g. Figure 1(a), Figure 1(b)).
- Figure captions must be saved separately, as part of the file containing the complete text of the manuscript, and numbered correspondingly.
- The filename for a graphic should be descriptive of the graphic, e.g. Figure1, Figure2a.

4. Publication charges

[↑Back to top.](#)

Article publishing charge (APC)

Each article published in *Plant Production Science* is published **Open Access**, which means that, **upon payment of an article publishing charge (APC)**, the article is freely and permanently available on Taylor & Francis Group's online platform <http://www.tandfonline.com/>. There is no additional subscription fee, article pay-to-view fee or any other form of access fee; and no publication embargo is applied.

All charges must be paid in Japanese yen. Non-residents in Japan should note that publication charges must be calculated according to the currency exchange rate at payment.

For the member of Crop Science Society of Japan (CSSJ),

APC per single paper:

- 60,000 yen for Review within 10 pages,
- 50,000 yen for Regular paper within 8 pages.
- 25,000 yen for Short report within 4 pages

Additional charges:

- Excess pages: 10,000 yen per printed page

For the non-member of Crop Science Society of Japan (CSSJ),

APC per single paper:

- 135,000 yen for Review and Regular paper,
- 90,000 yen for Short report within 4 pages

Additional charges

- Excess pages: 10,000 yen per printed page for Short report

The APC should be paid after acceptance of the article following peer review; corresponding authors should acknowledge who has funded their research when submitting their manuscript. They should also indicate the payee(s) of the APC, including to whom invoices should be directed.

Waivers and discounts on the APC are available to support researchers in developing and emerging regions unable to pay this charge. Please consult our author guidance [here](#) for more information.

For more information on our Open programme please click [here](#).

Colour charges

In consideration of the APC, colour figures will be reproduced in colour in the online edition of the Journal free of charge.

5. Reproduction of copyright material

[↑Back to top.](#)

If you wish to include any material in your manuscript in which you do not hold copyright, you must obtain written permission from the copyright owner, prior to submission. Such material may be in the form of text, data, table, illustration, photograph, line drawing, audio clip, video clip, film still, and screenshot, and any supplemental material you propose to include. This applies to direct (verbatim or facsimile) reproduction as well as “derivative reproduction” (where you have created a new figure or table which derives substantially from a copyrighted source).

You must ensure appropriate acknowledgement is given to the permission granted to you for reuse by the copyright holder in each figure or table caption. You are solely responsible for any fees which the copyright holder may charge for reuse.

The reproduction of short extracts of text, excluding poetry and song lyrics, for the purposes of criticism may be possible without formal permission on the basis that the quotation is reproduced accurately and full attribution is given.

For further information and FAQs on the reproduction of copyright material, please consult our [Guide](#).

This journal offers authors the opportunity to license their work under the [Creative Commons Attribution \(CC BY\) licence](#) which permits others to distribute, remix, tweak, and build upon your work, even commercially, as long as they credit you for the original creation. Please ensure that the rights holder of any third party copyright materials included in your paper has either granted you permission to publish their material under the appropriate licence terms, or has granted you permission to use their material with the appropriate copyright notice. For further guidance please consult our [Guide](#).

6. Supplemental online material

[↑Back to top.](#)

Authors are encouraged to submit animations, movie files, sound files or any additional information for online publication. *Plant Production Science* publish supplemental material online via Figshare.

- [Information about supplemental online material](#)

Manuscript submission

[↑Back to top.](#)

Manuscripts should be submitted as electronic files. Please go to <http://mc.manuscriptcentral.com/ppp3> and log in as a user. Enter the necessary information and upload your manuscript according to “Manuscript Arrangement for Contributors” described there. If you are unable to complete the submission, contact to the editorial office by E-mail: plantproductionscience@tandf-peerreview.com.jp.

Manuscripts may be submitted in any standard editable format, including Word and EndNote. These files will be automatically converted into a PDF file for the review process. The manuscript will be returned to the corresponding author with the evaluation approximately one or two months after submission. When a revision of the manuscript is required by the editor, the author must respond within one to three months depending on the decision of the editor, or the manuscript may be considered withdrawn. The revised manuscript may be reviewed several times. The final decision will be made by the Editor-in-Chief based on the report from the editor.

Click [here](#) for more information regarding anonymous peer review.

Copyright and authors' rights

[↑Back to top.](#)

All contributing authors are asked to grant Taylor & Francis the right to publish her or his article as the final, definitive, and citable Version of Scholarly Record within the Journal, which is published for Crop Science Society of Japan (CSSJ) by Taylor & Francis. Articles published in *Plant Production Science* are published under the [Creative Commons Attribution \(CC BY\) licence](#) which permits others to

distribute, remix, tweak, and build upon your work, even commercially, as long as they credit you for the original creation. Authors do however have the choice of opting for the [Creative Commons Attribution-Non-Commercial Licence](#) should they so choose. Reuse conditions will be subject to the license type chosen by the author. Copyright policy is explained in detail [here](#).

Accepted Manuscripts Online (AMO)

[↑Back to top.](#)

Plant Production Science publishes manuscripts online as rapidly as possible, as a PDF of the final, accepted (but unedited and uncorrected) manuscript, normally three working days after receipt at Taylor & Francis. The posted file is clearly identified as an unedited manuscript that has been accepted for publication. No changes will be made to the content of the original manuscript for the AMO version. Following copy-editing, typesetting, and review of the resulting proof the final corrected version (the Version of Record [VoR]), will be published, replacing the AMO version. The VoR will be placed into an issue of *Plant Production Science*. Both the AMO version and VoR can be cited using the doi (digital object identifier). Please ensure that you return the signed copyright form immediately, and return corrections within 48 hours of receiving proofs to avoid delay to the publication of your article.

Free article access

[↑Back to top.](#)

Once the APC has been paid, and your article has been published online it will be permanently free to access on Taylor & Francis Online by anyone. You will be given access to the *My authored works* section of Taylor & Francis Online, which shows you all your published articles, whether Open Access or not. You can easily view, read, and download your published articles from there. In addition, if someone has cited your article, you will be able to see this information. We are committed to promoting and increasing the visibility of your article and have provided [guidance on how you yourself can share and promote your work](#).

Reprints and journal copies

[↑Back to top.](#)

Article reprints can be ordered through Rightslink® when you receive your proofs. If you have any queries about reprints, please contact the Taylor & Francis Author

Services team at reprints@tandf.co.uk. To order a copy of the issue containing your article, please contact our Customer Services team at Adhoc@tandf.co.uk.
